TWO THOUSAND LIVES LOST IN CHILI EARTHQUAKE

Fire Followed the First Dis-
turbance and the Property
Loss is Enormous—De-
tails Meagre

(Special to The Bulletin.)
Valparaiso, Aug. 21.—In all eighty-
two shocks were felt here. Most of the
buildings of the city were either ruin-
ed or damaged. The loss will be enor-
mous, reaching \$250,000,000. Two
thousand persons killed is considered to
be a fair estimate. Vinal Del Mar,
three miles from Valparaiso and hav-
ing a population of 10,000, Quiriquina,
225 miles to the southward with a popu-
lation of 6,500; Quilota, 25 miles to
the northward, with a population of
10,000 and villages all around were
destroyed. Most damage was due to
fire, which started immediately after
the first shock.

Santiago de Chile, Aug. 21.—300 per-
sons are dead at Valparaiso as a re-
sult of the earthquake shocks, accord-
ing to the latest advices based on re-
ports of refugees who reached the city
this morning. The monetary loss at
Valparaiso runs into millions. Six or
eight other cities have been destroyed.
Railroad, street railway, telegraphs
and telephone systems are demoralized.
Madame Mont, wife of Admiral Mont,
who was reported killed is alive but
seriously injured. It is expected that
the street railway and lighting system
will be restored shortly.

New York, Aug. 21.—Reports receiv-
ed from various parts of the globe re-
garding the disaster have varied great-
ly some going so far as to compare the
havoc wrought to that of the San
Francisco catastrophe, with details
much the same. The town was first
shaken by a violent quake, then took
fire and is burning fiercely many per-
ishing in the flames and in the falling
buildings.

A Hamburg firm received a dispatch
stating that various districts in Chile
have been destroyed and Valparaiso is
practically destroyed. It is added, how-
ever that the dispatch is not authen-
ticated. This is true of all despatches
and of rumors which purport to give
details of the disaster. One London
firm has received a cablegram from
Valparaiso which says "Severe earth-
quake, commerce paralyzed, town on
fire." Communications were broken
and reports cannot be relied on as to
details.

PREJUDICE IS DYING OUT

Antipathy caused by Incompetence
is Waning

(Special to The Bulletin.)
London, Aug. 21.—Rev. W. E. Gil-
roy of Toronto, speaking at White-
field's tabernacle about emigration to
Canada said that prejudice did exist
among certain employers against En-
glish laborers, as many emigrants had
not been up to the average type of
workmen but this antipathy was now
fast on a wane owing to the influx
lately of competent men.

REGINA HAS MURDER CASE

Josiah Gilbert Charged With Having
Shot Barrett Henderson

Regina Leader: At about 9.30 o'clock
yesterday morning the farm until re-
cently owned by Josiah Gilbert, situated
some twelve miles to the south-
east of Regina, was the scene of a
frightful tragedy, as the outcome of
which Josiah Gilbert lies at the pres-
ent moment in prison with the awful
charge of murder hanging over him,
and Barrett Henderson, who recently
purchased the Gilbert farm, lies dead
in the undertaking parlors of Messrs.
Wright-awating a post mortem ex-
amination.

The beginning of the tragedy will
perhaps be never really known. So
far as present information goes only
two men could tell the story, the one
is dead, the other is Gilbert.

One account of the occurrence is to
the effect that Henderson was at the
stable on the Gilbert farm when Gil-
bert called to him to wait and he
would go with him and take a gun to
shoot geese. A moment later Gil-
bert appeared from the barn carry-
ing a gun, which as he approached the
buggy in which Henderson was
sitting, was discharged. Henderson
fell from the buggy, but getting up
started to run from Gilbert, who fol-
lowed, brandishing the gun. At this
junction two men who were driving
into town from Selkirk drove up, to
whom, upon seeing them the wound-
ed man ran, crying out that Gilbert,
who meanwhile had dropped his gun,
had shot him, and was trying to
murder him. The two men then
took Henderson into their buggy and
carried him over to the adjoining
section which was also his property
and where he had a gang of men at
work with a steam plough, Gilbert
following in Henderson's empty
buggy.

On reaching the shack where Hen-
derson's men were staying, it was at
once seen that he was in a terrible
condition. The evidently dying man
was urged to let himself be brought
into the hospital by Gilbert, but to
that he strongly demurred, saying
that it was as he had attempted
his life. Eventually he was driven
by two of his men, reaching the
hospital shortly after noon, where
although his arrival and about five
the most skillful attention that medical
science could afford, he expired a
little before 3 o'clock.

Meanwhile Gilbert had followed
Henderson into town and placed his
case in the hands of Mr. Melville
Martin, of the law firm of Balfour &
Martin. Following upon the death
of the wound man, Gilbert volun-
tarily placed himself in the hands of
the police. Acting on the sworn in-
formation of Sergeant Wilkinson, Mag-
istrate MacLennan issued a warrant
for Gilbert's arrest, and about five
o'clock he appeared before the magis-
trate and was charged with the mur-
der of the dead man and was re-
manded for eight days.

Steps were at once taken by Dr.
Seymour, as coroner, for the hold-
ing of an inquest, a jury being impan-
nelled by him at 7 p.m. at Wright's
undertaking rooms. The following
gentlemen constitute the jury: E. C.
Rossie (foreman), Fred Crapier, F.
B. Mundy, Wm. Burrows, W. J. Van
Valkenburg, and W. Ray. The jury
was taken to view the body, after-
which the inquest was adjourned un-
til 5 o'clock this afternoon in order
that an autopsy may be made by
Dr. Charlton.

The wound inflicted by the gun in
Gilbert's hands was in the left side,
the whole lower portion of the left
side of the deceased's face being ab-
solutely shot away, a huge cavity
being formed and the mangled jaw
hanging loose. Whether or not any
of the shot penetrated to the brain
cannot be absolutely stated until Dr.
Charlton's examination. The shot-
gun, which appears to have been
loaded with a varied assortment of
shot and slugs, does not seem to
have been fired at very close range,
although apparently showing no evi-
dence of being burned by powder.
The fact that the charge struck its
victim all in one spot may be ac-
counted for by the fact that the
bullet which would shoot for a dis-
tance varying from twenty to thirty
yards without scattering.

The dead man, who came to this
district in the spring from his home
near Charlottetown, P. E. I., was a
man of splendid physique, apparently
about 45 years of age. In addition
the whole of Gilbert's farm he was
also the purchaser of the section ad-
joining, on which his steam plow was
at work, while his men were living
in a shack on section 9, he himself,
with another man, was living in the
barn on Gilbert's farm, the farmhouse
by the terms of the sale, being left
in the possession of Gilbert until next
spring. The deceased leaves a wife
and three children, at present living
near Charlottetown. An old and close
personal friend of his, Frank B.
Hartz of Charlottetown, was w.r.d.o
yesterday concerning the affair and
requested to break the sad tidings to
the unsuspecting family. It is prob-
ably "regarding the disposition of
the remains."

Josiah Gilbert is an old man, close

LAYING CONCRETE THIS AFTERNOON

Contractors on City Sewer Main Have
Steam Shovel in Position and Com-
mence Making Pipe Today

The steam shovel which Taylor and
Boucher intend to use in sewer con-
struction, was hauled out to the scene
of operation at Rat Creek yesterday
and should be started up and working
this evening or tomorrow morning.
The shovel will excavate the trench to
a depth of 16 feet, after which the
gang will follow with the Carson to
make the deeper cuttings. At the point
of commencement, just below the iso-
lation hospital the cut is 25 feet deep.
A little further along toward First
street there is one spot where for a
few yards the main sewer will be 40
feet below the surface. Nearly two
hundred feet of excavation has already
been completed and this afternoon work
will be commenced on putting in the
big concrete pipe which is to be Edmon-
ton's main trunk sewer. By the end of
the week everything will be in full
swing with a big gang of men mak-
ing 30 or 40 feet a day.

CZAR ABANDONS THE CRUISE

Crew of Royal Yacht in Mutinous
Condition

(Special to The Bulletin.)
St. Petersburg, Aug. 21.—The Cz-
ar faces a revolution. No matter where
the ruler of all the Russias turns,
there he finds evidence of the spirit of
the rebellion. Rumors of this condition
have been in circulation for weeks.
Startling confirmation was found yester-
day in the announcement of the aban-
donment by the Czar of his cruise
in the Baltic Russian waters in the
imperial yacht Polar Star. The authori-
tative reason assigned for this change
in plans is the sign of mutiny discov-
ered in the crew of the Royal yacht,
two thousand lives lost.

DOWRIES WILL SETTLE IN CAN- ADA

(Special to The Bulletin.)
Winnipeg, Aug. 21.—William Mac-
kenzie and F. C. Mercer, two full
fledged followers of Dowie in Zion City,
Indiana, are now in the Canadian
Northwest making arrangements to set-
tle a large number of Dowies in Al-
berta. They profess to be very satis-
fied with the land they have seen and
will at once make arrangements for
the founding of a large Dowie colony
in Canada. Just how many people
will come to here with the first party
is not yet known, but these two land
seekers claim the number will amount
to several thousand and if the com-
munity proves a success more will
follow.

BOY DROWNED IN ASSINIBOINE

Waded Beyond His Depth and Could
Not Swim

(Special to The Bulletin.)
Portage la Prairie, Aug. 21.—Frank
Campbell Garrioch, eldest son of Rev.
A. C. Garrioch of this town, was drown-
ed in the Assiniboine river, two miles
south of town yesterday morning while
bathing. Deceased was 20 years of
age. He walked over a sand bar into
deep water and as he could not swim
drowned before assistance could reach
him. The body was recovered after two
hours' grappling.

MAN KILLED IN C.P.R. WRECK

Excursion Train Crashed Into Regu-
lar on Winnipeg Beach Line

Winnipeg, Aug. 21.—A serious col-
lision occurred on the Winnipeg Beach
line C. P. R. last night, when a
returning excursion from the beach
crashed into the regular train going
out, near Clamdeboye, six miles north
of Selkirk. Engineer G. McEally,
Fireman J. R. Hope and a passenger
W. Barr of Winnipeg, were seriously
injured in the smash and one unknown
man who is supposed to have
worked in the C.P.R. stores depart-
ment riding on the blind baggage
was killed, and his body is still in
the wreckage. It is claimed that
the excursion train was running con-
trary to orders, and should have
waited at Clamdeboye for the regular
train to pass it. Instead of this it was
sighted by the passenger engineer
while rounding a curve and he stop-
ped his train. The excursion en-
gineer did not perceive the regular in
time and crashed into it. The mo-
mentum caused the baggage cars on
both trains to be telescoped, otherwise
the damage to the rolling stock is not
serious. Six other passengers were
more or less injured but were able to
proceed to their homes on the arrival
of the relief train in Winnipeg at 1 a.
m. this morning. There being no regu-
lar operator near the scene of the
accident, definite news was not known
in Winnipeg, except by rumor, and an
immense and excited crowd was
at the station, all sorts of stories be-
ing current as to the number of killed
and wounded. It was however the
luck of the C.P.R. that more were not
killed as there were ten crowded cars
on the excursion and five on the regu-
lar.

ANOTHER MEMBER CALLED AWAY

Toronto, Aug. 21.—Mr. L. T. Bland,
M. P., North Bruce, died at his home
on Saturday. Just about one year ago
while visiting in the west, at High
River, he was stricken with paralysis.
He recovered sufficiently to be removed
home and was able to attend part of
the recent session at Ottawa, but toward
its close he had a relapse, from which
he never recovered.

Mr. Bland was one of the most popu-
lar farmers in Bruce County and was
an ex-warden of the county. He was
a Conservative in politics, but was
very independent in his opinions.

REVILLON'S BUY ANOTHER POST

Deal Completed Yesterday for Brick
Store at Vermilion on Peace
River.

A deal was completed in the city yester-
day between Revillon Bros and Al-
fred L. Brick by which Revillon's take
over the Brick store at Vermilion on
the Peace river. Practically speaking
yesterday's transaction was merely the
culmination of a deal made last Janu-
ary as it constituted merely the legal
turning over to Revillon's of the store
and business. It is important, however,
as it marks another step northward by
the big Paris-Edmonton firm, the Ver-
milion post being the farthest north of
the company's stores. Revillon's now
have posts from Fort St. John to Ver-
million, practically covering the whole
navigable water of the Peace. Vermilion
is counted the most important
point in the north, not alone on ac-
count of its large fur trade but also
because of the large cattle raising,
wheat growing and flour milling indus-
try already established there, and the
Brick store is considered one of the best
between Edmonton and the circle. Mr.
A. L. Brick will continue in charge
of the business there and left this
morning with Mrs. Brick for the north.
He will go by Lesser Slave lake and
Peace River Crossing, making a trip
of over five hundred miles by the
most direct route.

OUR SALE AND WANT COLUMN

Safe And Sound Investments For A Quick

Turnover At A Reasonable Advance

\$3,000

Will purchase a choice FARM with 80 acres in crop, one third of the crop goes with the farm. Good houses, splendid water and well fenced. If you are looking for a good farm near Edmonton ten miles out, go and see this proposition. You are sure to purchase. Terms \$1500 down and balance in six, twelve and eighteen months at 8 per cent.

\$47,000

Splendid block, McDougall Avenue, reasonable payment down and good terms. This property in two years will be worth \$75,000.

\$560

Choice building lot on Sutherland Avenue, get after this quick, or you will lose it. Half cash, balance six and twelve months.

\$15,000

Eleven lots on Jasper Avenue with buildings, here is another chance to make a few dollars quick. Have an interview with us and we will tell you all about it.

\$20,000

Will handle 150 feet frontage on McDougall Avenue near the post office; this is another one of our snags in the centre of the city. Reasonable payment down, Terms to suit the purchaser. The lowest on this property brings in good rent.

\$1500

Each, 2 View lots, and should the Parliament buildings be erected near the old H.B.R. Fort, these lots will be worth several thousand each. Easy terms.

\$1350

This is the amount required to purchase a nice corner position and two lots on Government Avenue close in. The reason of this sacrifice is on account of the owner having to make other payments which are past due.

\$7.50

Per acre, 30,000 acre situated immediately south of Birch Lake in the Vermilion. Very small payment down and the balance to suit, nothing less than 10,000 acres sold.

In Farming Lands

We have some dandy propositions in well improved farms, and also in wild lands near the rail and City of Edmonton. It will be more satisfactory to use an ad to you if you will call and have a chat with us.

We Have What You Want

Always glad to give information per training to Edmonton and District to land seekers or visitors. Come and see our large Grain Exhibit as seen at the Edmonton Seedling Provincial Fair. Maps, Literature, Booklets, View Albums, Gratis.

Box 368 McDougall Avenue, Edmonton, Phone 250

WILL CELEBRATE LABOR DAY

Good Programme Prepared For the Annual Celebration on September 3rd

A grand labor day celebration will be held at the grounds on Labor Day, September 3rd, under the management of the Edmonton Trades and Labor Council. A first-class program of athletic events will be put on and it is the intention of the council to make this a model Labor Day in the west.

The day will commence with a grand parade forming at 9:30 on Jasper east and going up McDougall to Rice, west on Rice to First, north on First to Athabasca west on Athabasca to Third street, south on Third to Jasper, east on Jasper to McDougall and then to the Fair Grounds.

At 10:30 Edmonton and Strathcona lacrosse teams will cross sticks for twelve beautifully set lockets and a purse of \$25.

An address on Unionism commencing at 1 p.m. will conclude the morning programme.

At 1:30 there will be an automobile parade for cups valued at \$25 and \$15 respectively. Then the Caledonian sports, which are open to all, as follows:

100 yards dash—1st prize, medal, value \$7; 2nd, medal value \$3.

Running broad jump—1st prize, cash, \$3; 2nd prize, cash \$2.

Putting shot—1st prize, cash, \$3; 2nd prize, cash \$2.

Hurdle race, 120 yards—1st prize medal, value \$7; 2nd prize medal, value \$3.

Bicycle race, half mile—1st prize, cash, \$5; 2nd prize, cash \$4.

Running high jump—1st prize, cash \$3; 2nd prize, cash \$2.

40 yard foot race—1st prize medal, value \$10; 2nd prize medal, value \$5.

Children's race, girls—1st prize, cash, \$5; 2nd, \$2; 3rd, \$1.

Boys—1st prize, cash, \$3; 2nd, \$2; 3rd, \$1.

Sack race—1st prize, cash, \$3; 2nd, \$2; 3rd, \$1.

Also union sports which are open to Union Men only:

100 yards dash—1st prize, pair of Union made boots or hat, value \$5; 2nd, hat, value \$3.

Bicycle race 2 miles—1st prize medal, value \$5; 2nd, hat, value \$3.

Relay race, 1 mile, team from each union—1st prize, cash or value \$12; 2nd, cash or value \$8.

Fat man's race—1st prize boots or hat, value \$5.

400 yards race—1st prize, pair of boots and hat, union made, value \$10; 2nd, boots or hat, value \$5.

Standing broad jump—1st prize \$2; 2nd, \$1.

Edmonton and Calgary will play baseball at 3 p.m. for a large purse. The Strathcona and Edmonton bands will be in attendance both morning and afternoon. Reduced rates of a fare and a third on the C. & E. and from all points on the C.N.R. as far as Vegreville. The general admission is 25 cents, while grand stand seats may be had for 25 cents extra. The committee are sparing no expense to make the day a huge success and the substantial prizes offered assures good contests.

Correspondence

TOFIELD.

Our town is growing apace. Messrs. Harper and Cress are building a new general store.

Mr. Bird is opening up a hardware business in Mr. Morton's old stand.

It is rumored that another doctor is about to locate in the neighborhood, making three in all.

A hotel is talked of. A good temperance hotel run on up-to-date lines is a necessity. A licensed house is looked upon by the majority of the community as a luxury and an unnecessary evil.

Mr. Allan Hall, Robert Hall and Miss Hall are spending the week with Mr. Stewart Hall of Beaver Lake.

Miss Vance of East Clover Bar is a guest of Mrs. Hall.

Mr. W. Williams is spending his vacation at Tofield.

Mrs. Walker of Sherbrooke, Que., is staying with her daughter, Mrs. N. B. James.

Mrs. McMullen, wife of the photographer is very ill.

Two black timber wolves and a deer were seen in the vicinity of Tofield lately. Coyotes are becoming very bold and numerous.

VERMILION RIVER DISTRICT

Vermilion River District, July 28. Editor Bulletin: Crops here are further advanced this season than ever before. Barley cutting is on, rye is ready for the binder and wheat and oats turning, and will be ready for cutting in a week or ten days. A bumper crop is an excellent crop, corn, tomatoes and other varieties looking fine. A bumper crop is looked for.

The bridge built by Mr. Chappelle on the road between sections 31 and 32, pt. 54, R. 2 west of 4th, is a great convenience to the settlers and is a good substantial piece of work and does credit to both the department and the builder. In the writer's opinion this bridge could have been improved by adding another beam at its present it does not quite cover ground liable to flood. A grant sufficient to make a passable road would be very acceptable now as this kind of work is always best done in suitable weather such as we are enjoying at present or

SHERIFF MAY SELL THE CITY

Slocan City in Financial Trouble—Council Resigns

According to the Frank paper Slocan City, B.C., is in a peculiar muddle. The Frank paper says:

The municipality of Slocan City, B.C., is in the throes of a serious legal muddle, and all over a simple claim for printing done by C. E. Smith, formerly connected with the Frank paper, when it was established a year ago last June. The case is unique in more points than one, and as a consequence the mayor, council and clerk sent in their resignations, but could find no one to accept them.

The facts of this most unique affair are as follows: A matter of two years ago, while Mr. Smith, formerly editor of the Slocan Daily, was editor of the Slocan Daily, near Jasper, a paper published at Slocan City, and during the occupancy of that position was given the tax list to print, by Clerk Smith, and as these two positions, editor and clerk, were united in one person, the city council, while not disputing the bill put in for the work, some \$2,000, yet turned it down, merely remarking that it could not be paid. After months of delinquency the debt was arranged by notes being given for the amount, and when the first of these notes became due last spring it was dishonored, hence the present proceedings and the likelihood of others.

The first note, \$500, went by default, and judgment was given, also by default, and as a result legal proceedings have been instituted to collect on it. The sheriff has served a notice upon the city clerk of Slocan City that the amount of the first note must be paid before September 4th, and if not he will immediately proceed to levy a rate on the whole city to cover the amount. The serving of this writ caused all the city officials to try to resign but no one could be found to accept their resignations.

If the matter is not compromised, Slocan City will be in hand straits indeed as its yearly revenue is said to be less than the amount claimed with an assessment roll which at present is very small. The sheriff declares he will strike a rate of any number of mills on the dollar so as to get sufficient to cover the present installment of the debt, leaving his installment on the assessment roll of the city, and if the tax is not paid will sell the city.

are likely to have later on. The country is fairly dry during autumn and fall and this is of course the best time to do good road work.

MUNDARE.

Mundare presents a scene of activity equalled by no other new town on the C.N.R. Five large buildings are in course of construction, and a gang of street graders are at work on Main street which is being graded its entire length.

A grade has been established for all new buildings on this street.

Work started a few days ago on the Government road from this place to Beaver Lake, a distance of 12 miles. Five miles have been completed at this writing and the heavy traffic upon it already proves that this road will be a great boon to the thickly settled district on the East side of Beaver Lake.

When this road is completed Mundare will have about sixty miles of graded Government road leading into it from north and south. The business men of this place are making great preparations to handle the increased trade which this road is bringing into the town.

Messrs. Aiken & McLean, the contractors for the big three storey hotel building here have been personally on the ground pushing the work with all possible speed and intend to stay in Mundare until the hotel is completed.

Robert Tegler of R. Tegler & Co., Ltd., the owners, has been east for several weeks on business in connection with the hotel. The Hotel Mundare when completed will be one of the finest hostleries on the Canadian Northern. The owners are making a strong bid for the business by putting in four large, well lighted sample rooms.

Messrs. Miller Bros., who are establishing a large hardware store are also on the ground with their contractors from daylight till dark pushing the work with utmost speed, realizing they are losing money every day by not being open for business.

Mr. McMillan, of Beaver Lake, who started building a large new general store several weeks ago has found it necessary to enlarge his building considerably as the completion of the Government road into Mundare has brought in a volume of business far exceeding his expectations.

Our enterprising riverman made a trip into Edmonton yesterday to purchase more lumber and rye and is confident more business is in store.

G. A. Werner's grain mill is completed and is doing a good business. A well-boring outfit has been in town for several days boring for water for the flour mill. A good flow was struck at 30 feet but the boring was continued 50 feet further.

Mr. Werner now has an inexhaustible supply of first class water and several other wells are to be bored at once, among which is a town well for fire protection.

The greatest need of Mundare at the present time is a bank. Mundare and vicinity could easily support at least two banks.

Crops never looked better in this district and all indications point to a bumper crop. Harvesting has already commenced in many points.

.....ACRE LOTS.....

North and also West of the city \$200 to \$275 per acre.

\$210 each for two Norwood lots \$225 to \$350 each, near Norwood school.

\$250 to \$350 each, choice Norwood lots.

\$400 each, Fraser avenue lots.

\$600 each, Kinsland avenue lots.

\$800 each, Syndicate avenue lots.

\$1,000 each, Ottawa avenue lots.

\$1,250 each, Nanayo avenue lots.

\$1,500 each, three lots, Gallagher corner.

\$1,600 each, McCauley street lots.

\$1,800 each, Picard street lots.

\$1,900 each, two lots on Third street west.

\$1,950 each, two lots on Fourth street west.

\$1,950 each, two lots on Twelfth, near Jasper.

\$1,950 seven room house near Norwood school.

\$2,000, 4 room house, two lots on Kin.

\$2,000, 6 room house on McDougall, corner.

\$2,200, 12 room house, corner Athabasca, close in.

\$2,500, 9 room house, Bellamy, near 2nd.

BEAR HUNT ON FORT TRAIL

Edmonton Men on Sunday Afternoon

Drive Find Excitement in Unexpected Places

H. G. Gardner, familiarly known as "Herb" and Dr. Hall went out for a little buggy ride Sunday which wound up in an exciting although unprofitable bear hunt. They were on the Fort Saskatchewan trail in the sunny afternoon hours, driving along complacently smoking La Palmas, dreaming idly and summing dreams and gazing at the beautiful and luxuriant crops, when all of a sudden "Herb" sat right up straight as though he expected to meet his best girl; all except that his classic features became tense and drawn like a man who was taking notice.

"Got 'em Again?" says Doc.

"S-sh-h," says Herb.

"Aw, what's the matter with you, anyway?" says Doc.

"Right over there," says Herb, "a bear, S-sh-h."

"W-o-o," says Doc. "Look at the wit on him. Have you got a flying machine around your clothes?"

The bear was there, sure enough, a great, big brute that looked as though he weighed a large part of a ton, waddling across the field as though he owned more farm land than the C.P.R. and didn't care a transcontinental mile for it. The boys surveyed the monster for a few brief moments and then organized a plan of campaign. Doc stayed in the rig and drove along the fence even with him, while Herb went to the half-way house to get a gun. There was no time lost in making connections and when Mr. Gardner had convinced the inmates of the wayside caravansary that there was a real, live, sure-enough bear ambling around in their precincts it took him some time to get a shot at the bear, as some farmers who had no firearms but any amount of nerve had arrived in the meantime and started to chase the bear across country with a horse and rig. Messrs. Corbin, Corbin, Herb, Gardner, Dr. Hall and several others took up in the party and a man on horseback took that and managed to get two or three shots at the bear as it danced its way through the brush, but did not succeed in hitting it. A farmer's dog which took a personal interest in the case was among the dog army in the canine happy hunting grounds. Having made direct connections with brain's terrible right. The chase continued across country, through the woods and sloughs and muskrats and meadow lands from the Fort road to Walker's. The boys all quit it tired and pretty nearly all at once and at last accounts the bear was somewhere in the neighborhood of the North Saskatchewan, headed straight for the Montana line. If he keeps up his gait he should reach Calgary before the next baseball series and brain's greatest danger at the present time is that the gun-punchers will harry him and ring him in as a running mate for Johnny Donovan.

TELEGRAPHIC BRIEFS.

The apple crop in the Brockville district is reported a complete failure. One orchard that last year produced two hundred barrels this year will not bear sufficient for family use.

After two years' canvass in the wilderness of Ontario north of the height of land a treaty has been made with the Indians as far as James Bay and the Albany river. There are about three thousand Indians in the region and they surrender their rights to ninety thousand square miles of land.

One hundred men in the employ of the Montreal rolling mills went on strike to enforce their demands for payment fortnightly.

Henry Miles of the Leaming & Miles Co. is spoken of in connection with the Liberal candidature for the legislature for the St. Antoine division.

Two deaths among second cabin passengers were reported when the Empress of Britain arrived in Quebec. Charles Unwin, booked for Saskatchewan, succumbed to apoplexy, and John Martin, returning to British Columbia with his family, died from heart failure.

Thomas Edison is visiting at Montreal.

The supreme lodge S.O.E. has concluded sessions at Chatham. Beneficiary members will be assessed 10 cents for fund expenses.

British exporters to Paris are establishing a Canadian section. An influential committee has been formed which in addition to placing their accumulated experience and information of forty years, at the disposal of Canadian exporters, will also carefully consider the advisability of making strong representations to obtain a revision of the Franco-Canadian commercial arrangements of 1893.

OPPORTUNITY IN ALBERTA

An Eastern Visitor Tells of the Progress of a Farmer and Lumberman of Pigeon Lake

Edmonton, Alta., August 17.

Editor Edmonton Bulletin:

Dear Sir,—Will you kindly allow me a little space in your semi-weekly which is so highly esteemed by hundreds of your eastern readers for a little write-up of the far-famed Edmonton district, by an eastern visitor. I will say that after a two-month visit in the Edmonton district I am so highly delighted with what I have seen not only of your beautiful crops and your bountiful harvest, but everything shows marks of happiness and prosperity. The broad smile on the face of the farmer, the rolling fat cattle on your prairies, the buzz and hum of your busy towns, and cities, is a straight pointer to prosperity on every hand. Surely the people of Alberta have reason to wear the broad smile of content while living in a land of peace and plenty. Wherever I have been in the Edmonton district it is the same story; the honest laborer is crowned with success. He likes the country, he is contented and is at last getting comfortably well fixed. One instance on my mind at present which I would like to mention. When in Westview I chanced to meet an old school mate in the person of Mr. R. J. Ferguson, and, after spending a few hours talking over old times, he prevailed on me to take a trip with him to Pigeon Lake, which is some twenty odd miles west of the town, where he is deeply interested in the manufacture of lumber. Here I saw one of the most beautiful lakes I ever saw; a body of water some fourteen miles long and from five to seven miles in width, with its beautiful sandy beach, its clear sparkling waters, filled with the best variety of whitish fish, so highly prized by our eastern people. For the benefit of many eastern friends, here is an instance that will show what a man with ordinary energy and pluck can do in Alberta. Here is a fully equipped portable mill located right in the solid spruce timber logging and manufacturing lumber, the valuable product to be used on the prairie. The hum and buzz of the planer and matcher turning out the finished building material of all kinds, the edge saws, the cut-off saws, cutting up short boards for box lumber, turning out egg cases, banana cases, fish boxes, in which the highly prized whitfish are packed in winter and shipped by the ton load to Winnipeg, Duluth, Minneapolis, Chicago and many other cities. It is marvellous to see the industry of this little factory in the heart of the forest. Just a few words as to the progress of Mr. Ferguson, as an example for the benefit of our eastern friends. Mr. Ferguson, left Saginaw county, Michigan in March, 1898 and landed in Edmonton in what is known as the Klondike rush the same spring, and we have from his own lips he had something like \$500 in cash. Taking that for a first payment on a half section of land near Fort Saskatchewan let him practically without money, but today finds him with one of the most beautiful farms in northern Alberta, which yielded him over nine thousand bushels of grain last year. Besides this he has some five or six sections of choice farm lands at different parts in the Edmonton district and a valuable timber limit of which I have been speaking. In short Mr. Ferguson is rated in the banks at Fort Saskatchewan, Edmonton, and Westview, where he does his business as being worth not less than \$30,000. A pretty fair thing for a start of five hundred eight years ago, and he is only one of dozens of like cases I might quote and is simply an instance of what energy and pluck will do for a man in Northern Alberta.

Thanking you for the space, Yours respectfully,
AN EASTERN VISITOR.

Why pay \$25.00 to \$50.00 for a suit of clothes when you can get just as good for \$15.00—No More, No Less. Our tailoring business is one of the largest in the world. No Middlemen! CONSULTING THE PEOPLE

While the results of the legislative tour will not be apparent in any practical way until the meeting of the House the beneficial effects of the tour on the legislators and hence on future legislation is admitted in all localities and by both parties. The members of the Provincial House while individually concerned more particularly with the affairs of their respective constituencies are the law makers for the entire province and their grasp of provincial affairs as a whole will be reflected in the legislation they enact. It follows that the broader and more thorough their knowledge of the interests and conditions of all parts of the province the more generally satisfactory will be the character of the legislation. A more practical manner of acquainting the legislators with the districts with which they were not familiar could not have been devised and that the tour accomplished this purpose is apparent in the utterances of the members.

The success of the legislative tour suggests the benefit which should result from a tour of the province by the members of the Provincial Government before the assembling of the House. While it is the business of the members to make the laws the duty falls upon the Government both of suggesting the greater portion of the legislation and of administering the laws which are made. In consequence it is necessary that the members of the Cabinet have an ever more thorough knowledge of provincial affairs generally than the private members of the Legislature. Such knowledge can be best secured by a tour of longer duration and broader range than that of the members. The legislative tour owing to the size of the party and the business connections of the members was necessarily limited as to time and opportunity was given for no more than a general observation of the conditions of each district visited. More than this the members visited only the southern portion of the province. A trip might well be taken by the executive which would include every electoral division in the province which can be reached by railway and which would allow all necessary time for a thorough study on the ground of the conditions of each locality. This would afford an opportunity for the people of each part of the country to bring the needs of their particular district directly before the Government and should result in both legislation and administration closely adapted to the requirements of the country and the wishes of the people.

CROSSING CONSTRUCTION

The other day a couple of men were fined in the police court for crossing a cement sidewalk where there was no road way. It is hard indeed for strangers to know where many legitimate crossings are in the city. For four weeks the crossing at the corner of May and First streets has been barricaded in order to lay the cement sidewalk. An entire crossing should not

be closed to traffic in this manner. Crossings should be constructed in sections so that there shall always be room for traffic either over the unfinished portion of the old crossing or the completed portion of the new one.

CIVIC HOLIDAY

For many years civic holiday in Edmonton has been coincident with the opening of the duck shooting season. There is more than coincidence in the custom which was established to enable as many of the citizens as desired to get a chance at the ducks while they are more plentiful and less wary than later in the season. Otherwise only those who could absent themselves from business could indulge in the first shoot of the season and the laboring man would be at an unfair advantage as compared with his more favored fellow citizen. Hence the opportunity has been generally accepted by those who enjoy the sport of securing the duck as well as the subsequent satisfaction of dressing his culinary capabilities. The evening of Aug. 22nd witnesses an annual exodus from the city to the neighboring lakes and sloughs.

In the grey dawn of the following morning scores of Edmontonites are risking malaria and enduring the inherent horrors of cold lunches as they tramp through the spongy marshes or steer the canoe through the reeds of a favorite feeding ground. Here during the day they perform feats of marksmanship on the assembled denizens and return in the deepening shadows of the twilight with light on heavy bags of the edible varieties and memories of inexplicable "misses" at the elusive "divers." The present season promises to be no exception to the rule. The ducks are reported plentiful and as large a number as usual will doubtless seek to verify the report on Thursday.

This of course is not the original idea of the "civic holiday" nor is it the only way in which the day may be pleasantly and profitably spent. That it will be observed as a holiday goes without saying and the manners of its observance will be as varied as the opportunities and tastes of the citizens. To many a resident the day will doubtless be an opportunity for doing those "odd jobs" around home which have been neglected during the summer. Hundreds more will go on exploring expeditions in their own city and suburbs and mark the development and expansion of the "terra incognita." For those who desire a farther range but do not carry a gun there remain the numerous summer resorts in the neighborhood where nature offers recuperation for her tired children.

(ESTABLISHED 1886)

The Question of Children's Shoes

Is an extremely important one, as so many mothers know. It is sometimes very hard to get a shoe that will fit a child's foot properly, and often requires a large stock to choose from. We make a specialty of Children's Shoes, and as we carry a large stock we are usually able to find a shoe that will please our juvenile customers.

INFANTS' SOFT SOLE SHOES
In tan or black, 40c per pair, colors and white, 65c and 75c per pair.

CHILDREN'S SLIPPERS
We carry a good range of children's slippers; all sizes, and several different prices.

CHILDREN'S PATENT TIES
For dress wear, a very dainty patent tie; sizes 11 to 13, per pair \$2.00.

SHOE DRESSING
We carry only the best liquid and paste dressings, in all colors for black, gun-metal, tan, brown or white shoes, and will promise you that any dressing you buy here cannot possibly injure the finest shoe.

MISSIE'S SPRING MODEL SHOES
We show a special line of missie's spring heel shoes, sizes 21-2 to 5, fine Dongola, with patent tip, \$2.50 and \$3.00 per pair.

INFANTS' MOCCASINS
Infants' fancy soft sole moccasins, in colors, 25c and 60c a pair.

CHILDREN'S BAREFOOT SANDALS
In an extra good make, all sizes, 5 to 10 1-2.

BOYS' LACROSSE SHOES
In a range of sizes 10 to 11 to 12 and 1 to 5.

CHILDREN'S SCHOOL SHOES
We carry a line of Children's Shoes, made specially strong to stand hard, every-day wear.

KANT SLIP SOLES
A large number of our Children's Shoes in the smaller sizes are made with a special sole that will not slip. This is a great advantage and costs no more than the shoe made with an ordinary sole.

YOUR INSPECTION
Of our shoe stock is invited at any time convenient to you.

DOES OR DO?

\$10.00 GIVEN AWAY.

For the three best criticisms of the first sentence of the slip which we
put in every package of tea or coffee.

FORM OF SLIP

TO OUR PATRONS

If the contents of this bag be Tea or Coffee—does not please
you, do not condemn it as being poor. It is just that you did not get
the flavor which you like. We carry several flavours of each price,
and if you will kindly explain to our representative when he next calls
what seems to be the matter, we shall deem it a favor and will guar-
antee the next order to suit you.

We cannot hold your custom without giving entire satisfaction; natu-
rally we wish to please you in every respect.

THE NEW YORK TEA & COFFEE CO.,
171 Queens' Avenue.

Having had a great deal of adverse criticism on the first sentence of
the above, we have decided to find out whether "do" or "does" is correct,
and will give \$5.00 to the best and most correct criticism of the wording
of that sentence, \$3.00 for the next, and \$2 for the third.

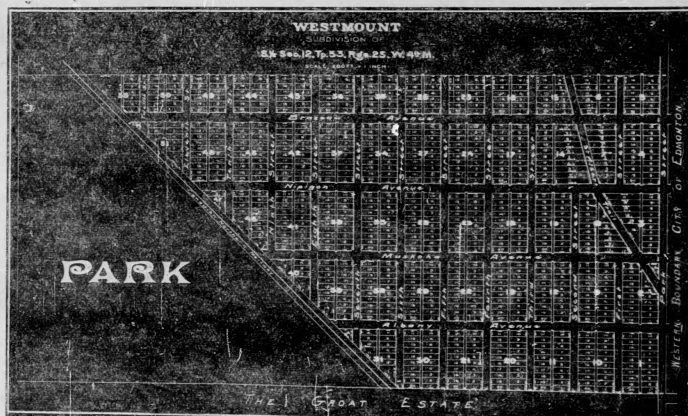

Competent judges shall decide on the winners.
Any one wishing to try for the above may do so by purchasing from
us one half pound of any one of our 10 or 50c teas or coffees. Each pur-
chase shall contain a slip numbered and initialed by the Manager, which
slip must be sent with the criticism.

Contest closes on August 31st, and results shall be made known in the
City Journals.

The New York Tea & Coffee Co.

171 Queens' Avenue.
EDMONTON, ALBERTA.

Try an Adv. in the Daily Bulletin.

..... WESTMOUNT

Is not two miles, nor one mile, not even half a mile, from the present city bound-
ary. Only Park Street between it and the city. The City Park is directly West. It is
by all odds the closest-in sub-division, on the market, in the West end.

The lots are fifty feet in width—you do not have to buy two lots to have enough
land to build a house on.

If you do not buy at present prices you'll be glad to do so at \$100 advance in a
very short time.

Better make that \$100.00.

Prices—

\$100, \$125, \$150, \$175, \$200, \$225, \$250. 10 per cent. discount
to purchasers of half a block (10 lots).

Terms—One-third down, balance in one and two years, 7 per cent., or
One-third down, balance in six and twelve months, no interest.

WE WILL DRIVE YOU OUT TO SEE THE PROPERTY.

CELEBRATING THE COMPLETION OF A RAILWAY THROUGH THE ALPS

International Exhibition at Milan to Signalize Opening of
the new Italy-Switzerland Line

(Bulletin Special Correspondence).

Milan, July 27.—The first international exhibition ever attempted by Italy is being held here to signalize the opening of a new railway highway between this country and Switzerland. It was in 1898 that the enterprise of a railway under the Simplon and St. Leon mountains which had been talked about for nearly fifty years took practical shape; and an army of ten thousand men began digging their way into the heart of the Alps, one half of them at Brig, Switzerland, and the rest at Iselle, Italy. Twelve miles and a half of mountain rock divided them; and it was not until May of the present year that that last screen of diving rock yielded to the pickaxe and the workmen from the north and south shook hands in the heart of the Alps, thousands of feet below the snow-crowned summits.

Milan, the second city of Italy in population but by far the most important commercial and financial centre in the kingdom, lies at the foot of the Alps; and the new tunnel is at its very doors. The city which is as keen to advertise itself and its industries as any new world centre planned first to celebrate the opening of this important new work by a local partial exhibition, but the enterprise grew on the hands of the committee until it became a great national undertaking in which the whole of the kingdom took an interest. The work of organizing the fair has been carried out chiefly by committees of Milanese merchants, but the national authorities have assisted in many ways particularly in securing the interest and co-operation of other nations.

The fair was opening in May last almost simultaneously with the completion of the tunnel and it will continue until the middle of November. Midsummer heat here is oppressive, and it is not expected that there will be immense crowds and large excursions of sightseers until September and October. Meanwhile the people of Milan and the surrounding country are attending the fair, in very considerable numbers; and the authorities say the volume of attendance has exceeded expectations. It is believed that the exhibition will prove a financial success.

The fair is an ambitious one, resembling somewhat in scope and nature the Pan-American held in Buffalo in 1901, though it lacks the spectacular attractions of the latter and in particular has nothing to compare with the electrical illumination which was the great feature of the American show. The exhibition covers a very extensive area, no less than 1,000,000 square meters of land being included within the walls. A metre, it is to be borne in mind is a little larger than a yard. Owing, however, to the fact that the fair in its present proportions was not planned from the outset but grew like Pompey, it leaves a lot to be desired in the way of orderly arrangement. Locations for buildings were granted as applications came in, and when the site originally chosen, the Piazza d'Armi, the military parade ground of the army corps here stationed, was filled, the exposition authorities fenced off a portion of the city park, one half mile away, but the remaining buildings there and connected the two sections with a temporary overhead railway. The result is that there is no general plan of grouping similar exhibits in the same localities, they are scattered here and there over the whole large area. For instance there is a fine display of French decorative art in the Piazza d'Armi, while the exhibits of decorative art by Great Britain, Italy, Switzerland and Japan are housed in a large building in an out-of-the-way corner in the park section of the grounds. A good deal of travelling energy is required before an adequate idea of the real proportions of the exhibition are available.

In the Piazza d'Armi section the largest building is given up to working exhibits of various kinds, showing machinery in actual operation. This is mostly Italian, the display of the silk industry, which is one of the chief sources of Italy's wealth being particularly elaborate. Here every stage of the manufacture of silk is set forth. The printing section is also very extensive, a dozen or more job machines, all of the Mariani type, being in constant operation, mostly in color work. The only American machine observable was a Hoe web-printing press and one monotype.

Another immense building is given up to agriculture, principally to a machinery display, and the importance which the manufacturers attach to securing this market, now that the sickle, scythe and flail which have been in use here from time immemorial are being replaced by labor saving devices, is indicated by the elaborate displays which are made. Drills, harrows, plows of every kind and descriptions, hatters, binders, traction engines and threshers fill the great halls to the doors; most of the exhibits are by English or French firms, though there is a display of Canadian agricultural machinery which probably attracts more attention there than it would in the large machinery building where it would be lost amid the acres of implements. None of the immense steam threshers in use on the Canadian and United States prairies are to be seen; there appears to be no field here for such machinery. Judging by the ex-

hibits here displayed the popular thrasher is a small one, mounted on four solid wheels, which can be extended for business purposes and then folded up into compact form and hauled upon its own wheels either by horse or by a small traction engine. The display of steam motors of various kinds shows the growing demand for power of this sort on the Italian farms. The market for agricultural implements is widening rapidly here, and Canada is getting some of the business. The Massey-Harris people have five agencies here and keep several experts on the road all the time instructing the Italian farmers in the use of machinery; the Italian farmers are waking up.

The Italian, Swiss, French, German and English exhibits are scattered among the large buildings but there are many special buildings and pavilions where the exhibits of an entire nation are grouped. Among these are the buildings of Russia, Hungary, Bulgaria, Morocco, Belgium, Austria and Canada. In many respects the Canadian building is the handsomest of all these. The exhibits are all made by the government which thus has complete control of the building and its contents. The exhibits are so arranged as to have a fine educative effect on the sightseer as to the richness of Canada in agriculture, mining, fisheries and manufacturing. The decoration of the building's interior with grain and grasses is very artistic and gives the building a special interest. Imitation being the sincerest form of flattery it is interesting to note the very obvious attempt of the Bulgarian commissioner and his staff to copy the style of interior decorations. The Canadian exhibit is one of the most attractive on the ground and ought to have a good effect on trade between the two countries.

One of the most interesting exhibits is that housed in the marine building where there are elaborate displays of the mercantile marine and the navies of the four leading shipping peoples of Europe, Great Britain, France, Germany and Italy. There are beautiful models of the great warships and huge merchantmen, dozens of them. The big Glasgow shipbuilding companies, the Harlands and Warr, the Fairfields, show models of all their newer passenger steamers, including the new Cunarder the Lusitania and the Empress of Ireland, the latest addition to the C.P.R.'s Atlantic fleet. In this building there is also a striking display of naval artillery by the Vickers, Maxim and Armstrong firms, including some 7.5-inch guns. The Armstrongs have recently established immense works in Italy.

In the Park section the largest exhibits are those of Fine Arts which are housed in an immense gallery semi-circular in form with a large concert hall occupying its centre. The decorative arts, exclusive of the French exhibits, the retrospective museum of transportation, and the working model of the Simplon tunnel. The last which is in some respects the most interesting thing in the whole exhibition is an elaborate reproduction of a section of the tunnel showing all stages of the work from the preliminary drilling to the completed masonry. Extremely interesting too is the display of former methods of locomotion by land and sea. Here we have models of the Viking ships, the caravels of Columbus, the galleys of the Mediterranean nations, and a vast variety of road carriages from the Roman chariot down to the elaborately decorated carriages with which Italian dignitaries, civil and religious, were wont to make their state entries and journeys. Many of these carriages including several used by Napoleon, are shown in all their elaborate trappings of gold cloth though the passage of time has somewhat dimmed the splendors of the colors.

The exhibition as a whole will impress the visitors from other lands with the greatness of Italy. This country, after centuries of misrule and turmoil, has taken a fresh start since United Italy became a reality; and in many respects is a young and thriving community with large industrial and commercial ambitions which are in a

CANADA VS. UNITED STATES (Special to the Bulletin)

Winnipeg, Aug. 21.—During the present year there will be a tremendous struggle between the United States and Canada for the farm produce import trade of Great Britain. Hitherto the port of entry for the farm produce of both these countries has been Liverpool. But hereafter the Canadian Government will export to London only. By so doing they will secure a great advantage over the United States. Special arrangements have been made with the Allan line of steamships to convey the goods across and the Allan line has made arrangements with the Surrey Commercial Dock Co. This company is now completing the largest cold storage warehouse in the United Kingdom, whereby frozen produce can be immediately transhipped from the cold storage warehouse to wherever they are required. The managing directors of the Allan line said recently: "The merchants will be able to come down to the dock and inspect their goods without the slightest difficulty. I feel sure the increase to Canadian trade will be enormous on this account."

THE ROSCIANS SCORE A HIT

ra Diavolo Meets Favor as a Musical Production.—"The Mascot"
To-night.

The Roscians in Fra Diavolo entertained a large audience at the Thistle theatre last night. The hit of the evening was made by the comedians, Arthur Burgess and Carl Hoffman, as Beppo and Giacano, bandit followers of Fra Diavolo. Their appearance on the stage at the moment of the signal for an outburst of mirth, Hoffman especially has a good bass voice and fills his part as the jolly robber and classic hobo to a dot. Hilliard Campbell as Fra Diavolo is a distinguished success and Miss Winifred Crawley as Lady Alicia is a favorite with the most critical audiences.

As is usual in light opera, the production is much more musical than sensible. The scene is laid in the mountains of Italy, the happy hunting ground of the playwright, when in the fastnesses of the Cispalpine mountains Fra Diavolo is represented to have located his home ranch and worked up a land-office business as a hold-up man, disguising himself as Marquis San Carlo in order to break into polite and clerical society and incidentally holding up Lord and Lady Alicia and besides stealing a bushel or two of glittering gems from Lady Alicia's millinery, also stealing the lady's heart. Of course Lord Alicia filed a demurrer in the best of musical English and Lord and Lady Alicia's "I Object," was one of the musical hits of the evening, drawing almost as much applause as was awarded the entrancing and haunting strains "By Yonder Rock Reclining," the most musical, enduring and catchy air of the production. At the curtain Fra Diavolo gets caught red-handed trying to rob a hermitage, where they had a fine line of old wine and Renaissance silver plate, and as the finish of a football rush for liberty gets shot in the diaphragm by Lorenzo, captain of the carabinieri, dying nicely in spot light, stage centre, as all good opera villains should, while Zerlina, Lorenzo's lover looks on and warbles contralto trills about their approaching marriage. The production is a musical and spectacular success and the Roscians are safe to play the balance of the week to business that will fill the house from footlights to box office. They will play "The Mascot" tonight.

Strathcona

Strathcona, August 20.—At a police court session held today Mr. Mackay laid a complaint before Magistrate G. W. Tipton, to the effect that a dog belonging to Mr. Arthur Pearson, had a very decided tendency to bite, and that plaintiff himself had been bitten. After evidence had been heard, the owner of the canine was fined \$1.00 and costs.

Mr. Robert Campbell, plasterer, fell eight feet this morning while working at Duggan street school. Fortunately, however, with the exception of bruised arms and hands, and a severe shaking, he escaped serious injury. Ed. Lyne returned with the afternoon C. P. R. train from Vancouver where he has been on business.

Jack Downes, who appeared before Strathcona agents last Friday in a wrestling contest under the alias of Al. Woods, is registered at the Windsor Hotel.

In real estate circles a dullness prevails the market, although a steady business is still in evidence.

Duncan McLean, who arrived here recently from Glasgow, Scotland, has received an appointment on the C. P. R. at Calgary.

John A. Coulson & Co., of the Alberta cables, are negotiating with Mr. Harry Rouns, of Oregon, for the purchase of no less than 2,500 horses.

BRACKMAN-KER MILL TO BE CLOSED DOWN
The Brackman-Ker Milling Co., Ltd., of Strathcona, have decided to close down their works temporarily this evening. Owing to the exceptionally heavy output of work, and also to the severe strain on the machinery during the last few months by working a double shift, the directors have deemed it advisable to take advantage of the quiet season by thoroughly overhauling the whole of the machinery in the mill.

An additional boiler will also be installed. Thomas Richards, contractor, has charge of the work. The boiler is supplied by Gollis & McCullough.

About twenty-five men are employed at Brackman-Ker at present. Work, it is anticipated, will be again in full swing in about a month's time.

'DEACON' WHITE
ON ALBERTA BALL

Advertises Edmonton as the Best
Fan House in the West. Organ-
ized Ball the "Deacon's" Dream.

"Deacon" White, Edmonton's second baseman, can handle a pen as well as a wagon tongue, and has already commenced advertising the Alberta capital in the sporting columns of the outside dailies. The "Deacon" is one of the best known ball players in the business, having handled the Superior team in the Northern league, the Anacortes team in Washington and having played ball in Spokane, Seattle and other frantic fan houses in the United States. The Winnipeg Free Press to hand yesterday contains the following:

"Winnipeg fans will remember 'Deacon' White, the elongated shortstop who played with various Northern league teams in past years. White is now in Edmonton, and how he arrived there is best explained by himself in a letter to the sporting editor:

"To the Sporting Editor, Free Press.

"Sir,—I took the Fargo team through to the coast last fall on the Northern Pacific, remained in Seattle over winter, played with Spokane in the Northwestern league for two months until I received a "Charley horse," went from there to Anacortes, Washington, managed the ball team there, and just recently took them on a long trip to Calgary and Edmonton, over one thousand miles. The country and climate about Edmonton has pleased me so much that I have cast my fortunes with Edmonton for the rest of the season, and will locate here permanently, although interested in the real estate business at Anacortes, Washington. This is the greatest country in America. One has only to see to be convinced. Here is a little dope about the Edmonton baseball team. Kindly use it. Give my regards to Jack Lamb and "Sukey" Anderson.—Cordially, W. F. WHITE.

"Baseball in the province of Alberta is no longer in the experimental stage, it is a living, growing, wonderful success. The crowds that turn out to the game in Edmonton and Calgary would put to shame many a city in class B baseball. There is talk already of forming a four-club league in this section next season under national protection and in class B or C. President Lucas, of the Northwestern league, has envious eyes turned on this new field for baseball. The money is here to support fast baseball, and the patronage this season, when continuous baseball has been played since June 1, warrants the belief that a league would at least hold its own if not prove profitable.

"The Edmonton team this year is an aggregation of fast ball players that could easily trim a team of the class of the Northern league last year. There are but two amateur players on the team—that is, in the sense that they have not had experience. Such men as Jimmie Sullivan, Adams, Howard, Yeazell, Gleason and Wild Bill Setley—all names to conjure with on the Pacific coast—are playing with Edmonton. Wild Bill Setley has played in every league in the country, and is still

playing great ball. The climate has put new life into the old timer, and his great speed on his feet has come back, so that it is nothing unusual to see Bill take a long sprint and make one of his famous catches behind his back.

"Edmonton is planning a tournament for the latter part of September, and it will be no mean affair if the undertaking is found feasible. The Winnipeg Maroons will be asked to participate, and teams from Montana and Washington. There will be several thousand dollars in prizes to contest for, and the affair will be one to make baseball enthusiasts sit up and take notice. Calgary and Edmonton come together this week in another blood-thirsty struggle for each other's scalps."

CRICKET

EDMONTON VS. FORT SASKATCHEWAN.

One of the best matches ever played in Edmonton took place on Saturday last, a close and exciting game, ending in a victory for the home team by twenty-six runs. Both teams had strong sides and some good cricket was witnessed. A large score was again made by Bertenshaw, his innings of 66 eclipsing anything else which was done. To their fine catching was due the dismissal of Woraley, Wood and LeMaitre. The Edmonton innings closed at 123. The Fort even lost Ward at four. Bowen and Still added 24 for the second wicket; their runs were made by means of large hits. D'Easum batted steadily and received support from Emery. Chaney came next and maintained a strong defence at a very critical time. Mount, the Fort secretary, gave him assistance, and their partnership advanced the score from 65 to 85. At this point the latter was well taken at third man at the second attempt. The two remaining wickets offered slight resistance and the match terminated in favour of Edmonton not without some anxiety and excitement on their part during the innings. Chaney carried his bat for a well-played eighty. The afternoon turned out very fine and there was a large and appreciative attendance. Tea was served through the kindness of Mrs. Almon and Mrs. Edmiston.

Mr. J. F. Finney, a Duck Lake farmer who was seriously injured on August 3rd by having a large piece of flesh cut away from below the knee by a mower, died in Prince Albert hospital.

The Magrath Pioneer has shown commendable enterprise in the report of the legislative trip. The issue contains half tone cuts of Premier Ruthenford, Hon. C. W. Cross, Hon. W. T. Finlay, Hon. W. H. Cushing and J. W. Woolf the member for Cardston.

Normal students are unable to secure rooms in Regina.

Vegreville is preparing for their exhibition on September 27th and 28th.

Harvey Greenway, son of Hon. Thos. Greenway died last week at his home in Crystal City.

Regina is to have a new city hall, costing \$120,000. The building will be of Victorian design finished in Bedford stone and pressed brick. The contractors are Smith and Wilson, Lethbridge.

Clareholm Review: A special detachment of the R.N.W.M.P. left Nanton yesterday in search for the Indians who have been slaughtering game out of season in the foot-hills under the pretence that they were hunting for wolves. The prompt action of this force will be very much appreciated by our settlers.

Calgary Herald: An interesting commentary on the lumber situation in the city is to be gathered from the following data:

A saw-mill man in the foot-hills cut lumber for \$5.50 a 1,000 two years ago. He claims he could do the same today with the present conditions of manufacture.

He sold his lumber for 12 to 13. He sold the stuff at a profit of \$6 to \$12 per 1,000 and saved about 12,000 a day. His total profit on this small plant was \$72 to \$144, which represented 100 to 200 per cent. This is according to the statement of our informant who is an experienced lumberman, the minimum profit today with lumber at \$21.

What other business can declare such dividends?

"A piece of Tommy-rot," is the way the police characterize the squatter and Doukhobor disturbances at Langham. Sergt. Cook of Roosters, Constable Bell of Saskatoon and Constable Geray of Prince Albert fully investigated the matter. They drove all through the Doukhobor reserve along the Saskatchewan river. Thirty-nine squatters were found on Doukhobor lands at Langham. The reports of the gun and knife play between two factions were declared to be purely imaginary, no such occurrence have taken place.

Macled Advance: Frank Webb of Edmonton in connection with the Agricultural Department is making a trip to collect grain in the straw. The grain must be ripe but not dry; these samples are to be shipped to Strathcona to be included in a carload lot from Alberta to be sent to the principle kilns in the eastern provinces, and finally end with the Dominion fair at Halifax which opens September 22nd, 1906. This will be an opportunity for the farmers of this district to advertise Alberta. Samples of these grains in small cotton sacks will also be shown.

Macled Advance: John Silver, a farmer living in the Lethbridge district has twelve binders at work on a 2,200 acre field of wheat. It is estimated that this, the first crop, will pay for the land twice over.

Regina Leader: The last few weeks have witnessed a boom of the biggest kind in the organization work among the printers in Regina. When the printers organized a year ago they hoped that they would not be long alone as the only organization in the city. It is expected that in the course of a few months Regina will be one of the most thoroughly organized cities in Canada.

CROPS IN EASTERN SETTLEMENTS
Fort Saskatchewan Reporter: Mr. Batty, Indian agent at Saddle Lake, and Mr. P. Tomkins, of the Whitefish Lake, paid a visit to the Fort on Saturday. They report harvesting in full swing up there and that the crops are very much better than last year's. The stock on the reserve is in fine condition and only the distance prevents them from having a crack at the Fort fair. Mr. Tomkins would like to give some of the directors of the fair a chance of sinking their teeth in some of his sweet corn, grown in his own garden at Whitefish Lake. The crops in the Whitefish Lake district are much farther advanced than they are here, stacking being now in progress. Mr. Tomkins reports that a fine tract of old and between Whitefish Lake and Lake La Biche is now lying open and it only requires a good bunch of settlers to make an Al settlement. Twenty miles north of Whitefish Lake lies Lake La Biche, which is one of the most beautiful lakes in the province, and will some day be the summer resort of the province. Fish of all kinds swarm in the waters of the lake, such as Jack, L. sn, Pickerel, Whitefish, Perch, etc. Game of all kinds is abundant in the country around the lake, and wild fruits in plenty are to be seen in the woods. Anyone going out there crosses the divide as the waters of Lake La Biche run into the Arctic ocean by River La Biche.

CANDY & CO.

THE ash-pit of the Oxford Hot Water Boiler high base gives great depth for accumulated ashes, and, when ordered, is fitted with an ash sifter which separates the good coal from the dead ashes, thus, without any extra trouble, saving much fuel that is ordinarily thrown away.

Oxford Hot Water Boiler

The diameter of the fire-pot is greater at the top than at the bottom, preventing an accumulation of ashes around the most active part of the boiler.

The triangular revolving grate is hollow, allowing immense air space without permitting live coals to drop through. Dead ashes, clinkers, etc., are sharply cut off by a turn of the grate. The whole contents of the grate are dumped by a few extra turns.

We would like to tell you more about the Oxford Hot Water Boiler. Will you write for our book? It's free.

SOCIAL AND PERSONAL

Superintendent McCaig of the city schools returned from Calgary Saturday.

Miss Mary Reid entertained a number of young people at 500 Saturday evening.

Mr. and Mrs. C. W. Strathly returned yesterday from Winnipeg, where they have been for the past two weeks.

Miss A. Walwork of Alberta College, returned today to her home in Lethbridge.

Miss Nellie Donaldson who has been the guest of Miss Irene McIntosh, Third street, leaves for her home in Prince Albert today.

Miss McCaig, of the department of agriculture, is spending the week at Medicine Hat, in connection with the establishment of the new cooking school at that place.

Mr. and Mrs. A. York entertained for the first time in their new home on Seventh street one evening last week. What was the attraction for the evening. A number of games were played, after which dainty refreshments were served.

EDMONTON RIFLE ASSOCIATION

The threatening aspect of weather conditions no doubt accounted for the poor turnout on Saturday, the 18th inst., yet the afternoon turned out an ideal one, and a very pleasant time spent. The following scores were made in class firing, no sighters being allowed.

	Yards.	
200 200 500 600 Total		
S. S. Brown	29 26 31 28	114
G. A. Reid	32 35 27 28	122
Dr. Whitehead	27 19 24 20	90
A. E. Seaward	33 18 26 14	91
F. McNaughton	31 20 28	79
J. E. Wise	24 22 17	63
I. F. Killo	20 20 29	49

The first 200 yards, the 500 and 600 yards, were fired prone, the second 200 yards, kneeling.

August 23rd, being a civic holiday, the ranges will be open all day from 9 a.m. As this will be a good opportunity to get in some of the class firing, members who are not able to attend on Saturdays should endeavor to put in the day at the butts.

A black waterproof overcoat found on the range on Saturday, was left at the Edmonton Hotel.

POULTRY MEETINGS

Mr. A. W. Foley, the poultry expert of the department of agriculture will address a series of meetings at the following places:

Clover Bar, Aug. 25; Wetaskiwin, August 27; Lacombe, August 28; Red Deer, August 29; Innisfail, August 30.

The object of the meetings is to discuss with farmers the advisability of establishing at the above places co-operative poultry fattening stations. The reason for establishing these stations at the above places is that there is a ready supply of milk from the creameries at these stations, and milk is one of the best fattening foods available.

The Government will take the birds, fatten them, giving the farmer the increased price less the cost of fattening.

It is hoped that such a move will stimulate the poultry industry in this province to develop until it, at least supplies the local demand. Last year \$400,000 worth of poultry came into Alberta. It is the aim of the Government to have the market supplied by local producers.

BOARD OF TRADE MEETING

Cards are out announcing a meeting of the board of trade this afternoon which will in all probability be of unusual interest as there are two or three very important matters to come up. A committee was appointed at a previous meeting to enquire into the question of level crossings and this committee is to report at today's meeting. It is altogether probable that the board will take some action with a view to preventing railroads coming into the city on level crossings. The city assessment, a contentious subject, is also likely to come up for discussion. The meeting will be held in the council chamber at the city hall at 3.30 this afternoon.

THE BIG STORE

LADIES' FALL COATS -- FALL COATS

--- AT THE ---

Hudson's Bay Stores.

The sharp chilly weather which we have been experiencing this last few days has created something like a "boom" in ladies coats.

That large shipment of samples and exclusive styles which we recently received is disappearing very fast. So secure your coat now before they are all gone.

Some beautiful styles in Grey Tweed mixtures, trimmed with colored velvet are still to be seen in all sizes.

A few exclusive styles in ladies fur coats, made in Brown, Green, Blue and Black with mink, fox or sable collars and lined with white squirrel, grey squirrel or rate. These goods are decidedly choice, and ladies contemplating buying a fur coat this season, would do well by purchasing now.

Remember--The FIRST shipment of FURS is always the BEST, and the BEST always go FIRST.

Hudson's Bay Company.

--FURS--

Now is the time to have your furs repaired and altered. The Edmonton Fur store is now prepared to do all kinds of work in that line in a first class manner. All work is guaranteed satisfactory. Don't wait for the rush.
